
[European IPR Helpdesk Bulletin Issue \(19\)](#)

We are pleased to inform you that a new issue of the European IPR Helpdesk Bulletin has been released and is now available online.

This Bulletin issue is largely dedicated to **industrial designs** - industrial design protection, where and how to search registered designs, new **design innovation funding opportunities** under Horizon 2020.

Read also our interview with a young Luxembourgish designer and see her vision on Intellectual Property and design protection.

Trade fairs - our Bulletin features an article giving practical recommendations on how to minimise the risk of infringement when exhibiting new, innovative products and services.

Article of Professor Thomas Gergen explains the advantages and risks in mediation procedures, as possible alternative to solve intellectual property disputes.

As always, the Bulletin reports information about past IPR events together with some fresh news on the Helpline service. In addition, it contains the usual patent quiz and a new design crossword.
