
[Reminder: Share your views on future objectives for EU-funded research!](#)

With discussions on future directions, priorities and objectives for the next EU research and innovation programme "Horizon Europe" (2021-27) well underway, the European Commission has recently launched an [online consultation](#).

The survey gives you the unique opportunity to share your views on the most pressing challenges, topics and impacts the new framework programme should help to tackle. So make sure you have your say!

The consultation is open to participants worldwide, all inputs received will inform the work to prepare a 'Strategic Plan' for Horizon Europe, which will then guide the work programmes and calls for proposals for Horizon Europe's first four years (2021-2024). A key event in this co-design process will be the [European Research and Innovation Days](#) in Brussels from 24 to 26 September 2019.

Further information on the current state of play of Horizon Europe can be found [here](#).
