
[Regular Webinars](#)

In addition to on-site training, we offer web-based sessions especially intended for individuals interested in developing their knowledge of IP and IPR. You can join them comfortably from anywhere using your own PC or mobile device.

Our webinars are based on WebEx conferencing technology. For more information on how to join our courses via WebEx, please refer to our [webinar guide](#).

Regular curriculum 01/ 2018

We are happy to announce the webinars curriculum of the first half of 2018. Just click the course you are interested in and you will be directed to the corresponding event description with further details on contents and registration.

18 July 2018

[Maximise the Impact of Horizon 2020 project results](#)

Further information on registration:

Registration for our courses usually is possible right up until the date of the webinar. However, it could happen that the number of registrations exceeds the number of seats available in the course. In this case we will have to close registration earlier, unfortunately, and hope for your understanding.

For our web-courses we use WebEx Conferencing Technology. Please note, that the log-in data for the webinar will be sent to you shortly before the webinar takes place.

We would like you to please keep in mind that you will be asked by WebEx to install a browser application (i. e. the WebEx event center) on your computer when you use WebEx for the first time. This only takes a few minutes. Please ask your system administrator for assistance.

Should you have any questions or need assistance on technical issues from our side, please do not hesitate to send us an email at training@iprhelpdesk.eu.
