
[How to define and manage background in Horizon 2020](#)

Defining the existing knowledge, i.e. the “**background information**”, of the partners has a direct effect on the successful exploitation of the results in Horizon 2020 projects.

Being aware of the importance of this issue, we have developed this Fact Sheet to provide information about the **management of background information** with an accent on "**how to define background**" within Horizon 2020 projects through different examples.
