
[IP Statistics: WIPO Releases IP Facts and Figures 2020](#)

With the beginning of this New Year, the World Intellectual Property Organisation (WIPO) released their latest IP Facts and Figures 2020.

The publication gathers global data on intellectual property (IP) applications, to provide an overview on the latest trends with regard to four key industrial property rights. Meant to serve as a quick and straightforward reference guide, *WIPO's IP Facts and Figures 2020* specifically analyses application data on patents, utility models, trademarks and registered industrial designs.

Delve into the latest IP statistics and discover who are new emerging players in the vibrant global IP landscape. You may download the full report [here](#).
