

## [Our Approach](#) <sup>[1]</sup>

**From basic to business:** Our unique training approach brings your needs into focus. Covering a wide range of topics and levels, we make sure to provide you with the answers to your specific issues of IP management and IPR in EU-funded research programmes ? from a basic level to more advanced workshops addressing rather specialised subjects such as IP exploitation or technology transfer.

**From theory to practice:** All of our on-site and online training sessions are held by IP experts with a hands-on approach, practical expertise and a professional network in different sectors. To ensure a broad outreach, our cooperation partners comprise key multipliers such as National Contact Points (NCPs) for Horizon 2020, national, European and international IP organisations or member institutions of the Enterprise Europe Network working in direct contact with SMEs and researchers. Besides our regular training event and webinar schedule, we aim to answer to specific requests for individual or jointly organised training sessions or speaker slots at larger events or conferences.

Please note that the number and implementation of training events depend on the availability of our trainers.
