## [As a researcher in a Marie Curie project, I created a potentially patentable invention. Am I entitled to the ownership of such patent?](#) <sup>[1]</sup>

### Category:

[Marie Curie Actions](#) <sup>[2]</sup>

In Marie Curie actions, beneficiaries are the owners of the project's results (unless otherwise agreed). These persons are the entities signing the Grant Agreement with the European Union and therefore entitled to the rights and obligations under this agreement. Thus, researchers do not have ownership of the project's results, including any intellectual property rights such as a patent.

For this reason, often beneficiaries request the researchers to sign an agreement dealing with the transfer of rights from the researcher to the beneficiary, in order to make sure that the beneficiary complies with its obligations under the Grant Agreement.
